I am passionate about using design to solve problems.

I am a final year Computer Science student at University of New South Wales (UNSW) and an aspiring software developer seeking a career building innovative digital products.

EDUCATION

02/2018 - 11/2021

Bachelor of Computer Science (Honours)
University of New South Wales (UNSW), Sydney

AWARDS

- Finalist Team of Internal Case Competition (ICC) - awarded & placed as third position
- AVL team, National finalist of L'Oréal Brandstorm Innovation Competition

PROJECTS

UNSW Women In Tech Website (Front-End)

<https://unswwit.com/>
React.js, HTML5, CSS3, Javascript
Built the UNSW Women In Tech (WIT) website to create a platform to help like-minded individuals (especially women) advance in their STEM careers. This enables search for the society's resources and professional industry opportunities to 800+ of WIT members and 10+ sponsors.

Discussion Forum (Front-End)

<https://github.com/liviaw/Seddit>
Created the front end of discussion forum Web App using Vanilla Javascript.

UNIVERSITY INVOLVEMENT

UNSW O-Week Yellow Shirts

Together with a team of 15 members, we assisted over 700 new students, run social events and manage campus tours during UNSW O-Week.

UNSW CSESoc and CompClub Director

<https://compclub.csesoc.unsw.edu.au/>
Leading a team of 7 to coordinate outreach programs for high school students. Currently reached 300 students across 20 schools.

Successfully organised large scale events including 5-day workshop covering various computing topics and online classes for over 150 students.

EMPLOYMENT

Nasdaq

Casual Software Developer

03/2020 - Present

Built OOP based web testing application in Java to help over 20 testers in the team to write their test requirement with the aid of web visualisation

Nasdaq

Software Developer Intern

11/2019 - 02/2020

Worked with developers, QA Engineers and business analysts to build an automated testing application, which is used for the core product of Nasdaq, servicing over 160 market participants globally.

University of New South Wales Academic Tutor

02/2019 - Present

Tutoring COMP1511, COMP1521 and COMP1531, which are the core subjects for all Computer Science degrees in UNSW. I developed communication skills by teaching a total of 110 students across 5 classes.

Dekoruma.com

Technical Business Analyst

11/2019 - 02/2020

<https://www.dekoruma.com/property>
Writing python scripts as well as extracting property information and publishing to their website actively used by over Dekoruma's 1,400 active users.

Das Technology Co-Founder

02/2016 - 06/2018

Started and managed an E-commerce store for computer and office supplies. Co-led a team of 9 who have sold more than 200,000 products and are currently selling 50 products daily.
